1.0 INTRODUCTION

The Virginia Department of Transportation (“VDOT”) submits this Request for Qualifications (“RFQ”) to solicit Statements of Qualifications (“SOQs”) from those entities (“Offerors”) interested in contracting to serve as the Design-Builder for the completion of Gilbert’s Corner section of the Route 50 traffic calming project (“Project”). The purpose of this RFQ is to solicit information that will enable VDOT to determine which Offerors: (a) are best qualified to execute successfully the design and construction of the Project; and (b) will be invited to submit proposals in response to VDOT’s Request for Proposals (“RFP”).

2.0 BACKGROUND INFORMATION

2.1 Project Overview

The Project is the easternmost section of the Route 50 Traffic Calming project, which includes a 20-mile corridor of Route 50 from Paris in Fauquier County to Lenah in Loudoun County. The focus of the entire project is safety, context sensitive design, rural traffic calming, scenic and historic preservation and extensive public participation. In 1999, Secretary of Transportation Shirley Ybarra established the Route 50 Traffic Calming Task Force (“Task Force”) that is comprised of elected officials from Fauquier and Loudoun Counties and the Town of Middleburg, the Commonwealth Transportation Board Urban At-Large Member, VDOT’s Northern Virginia District Administrator and local citizen representatives. VDOT and the Task Force are developing concepts to calm traffic in the Route 50 corridor.

The Project is located in the County of Loudoun, Virginia, and includes the reconstruction of Route 50 from approximately 0.3 mile west of intersection of Route 15 to approximately 0.2 mile east of intersection of Watson Road. The total project length is approximately 1.2 miles. However, it is noted that this description and length are approximate only and based on the preliminary design shown in the RFQ information package. The final project length may vary depending on the Offeror’s final design and this fact shall be taken into account in the Offeror’s proposal.

The finished Project is to be consistent with the traffic calming measures throughout the remainder of the corridor. The conceptual design for this Project has been developed by VDOT in coordination with the Task Force and is approximately 30% complete. The Project includes, among other things: (a) construction of one roundabout at the existing intersection of Route 50 and Route 15 (b) construction of one roundabout at the existing intersection of Route 50 and Route 860 (c) construction of new roadway between Route 50 and Route 15 (d) construction of one roundabout at the new intersection of the new roadway and Route 15 (e) construction of one roundabout at the new intersection of the new

roadway and Route 50. VDOT's current estimated contract value for this project is approximately \$10,700,000.

2.2 Design-Builder's Scope of Work

The anticipated scope of work to be undertaken by the successful Offeror under the Design-Build contract for this Project will be identified in the RFP. This work is anticipated to include, among other things: (a) completing the design in accordance with Virginia's Route 50 Traffic Calming Project Design Memorandum (included in the RFQ Information Package set forth under Section 2.7 below); (b) environmental permits (c) right-of-way acquisition; (d) utility relocations, adjustments and coordination; (e) construction; (f) structures; (g) quality assurance and quality control for design and construction; and (h) overall project management. Brief descriptions of this anticipated work are set forth below. Offerors should note that all work performed on this Project shall be completed using English Units. Offerors should further note that VDOT has secured, on August 21, 2002 a FHWA-approved Categorical Exclusion ("CE") in accordance with the requirements of the National Environmental Policy Act ("NEPA").

Design services shall address all items necessary for construction and operation of the completed facility. Design services are anticipated to include but are not limited to supplemental surveying, roadways, structures, traffic control devices and design of any other necessary elements: signs, pavement markings and marker plans, drainage design, supplemental geotechnical investigation, borings and analysis, materials analysis, and landscaping. A required minimum pavement section will be provided by VDOT in the RFP for bidding purposes. The Offeror will be required to validate the suitability of the minimum pavement section, and if deemed inadequate increase the pavement layer thicknesses subject to VDOT approval. The Offeror will be responsible for the final design and construction of the pavement.

Services for right-of-way acquisition and utility relocations, adjustments and coordination are anticipated to include all work necessary to acquire the right-of-way and to perform the relocations, adjustments and coordination of utilities as detailed by VDOT in the RFP. All right-of-way acquisition costs will be paid by VDOT, and should not be included in the Design-Build price proposal. These costs are specifically payments to the landowner for land, damages, relocation of displaced people and businesses and relocation of utilities and do not include administrative expenses incurred by the Offeror. Access shall be maintained at all times to properties during construction. Offeror's Right-of-Way team shall be a member of the VDOT prequalified contracting consultant list, and include a VDOT prequalified Fee Appraiser.

The Offeror will obtain all necessary environmental clearances (unless otherwise noted herein) required to accomplish the work. The Offeror will be responsible for obtaining any necessary water quality permits and any

modifications of water quality permits. Specifically for utility relocations, if utilities are to be relocated by the utility company, the utility company is responsible for necessary water quality permits.

The Offeror will be responsible for providing VDOT with any environmental studies in support of a re-evaluation of the NEPA document if necessary due to any proposed changes in scope or design that are approved by the Department. VDOT will inform the Task Force of any changes in scope or design requiring a re-evaluation of the NEPA document. Offeror should note, however, that they are solely responsible for any schedule delays due to permit acquisition, modifications, environmental studies, and NEPA document re-evaluations associated with Offeror's proposed design and no time extensions will be granted.

Construction services are anticipated to include roadway; traffic control devices; the demolition and removal of the existing roadways and structures; all necessary excavation, drainage and utility relocations/adjustments; removal and disposal of hazardous materials; erosion and sediment control and all other environmental requirements and commitments including those from the CE completed by VDOT. The Offeror will be responsible for providing quality assurance and quality control testing for all materials manufactured off-site, excluding the items listed below:

- Pipe (concrete, steel, aluminum and high density polyethylene) for culverts, storm drains and underdrains
- Asphalt Concrete Mixtures
- Aggregate (dense and open graded mixes)
- Hydraulic Cement Concrete Mixtures

The Department will provide plant quality assurance and plant testing of these items. The Offeror will also be responsible for providing quality assurance and quality control testing of materials obtained from off-site soil borrow pits.

2.3 Legislative Authority for the Project

§33.1-12(2)(b) of the *Code of Virginia* authorizes VDOT and the Commonwealth Transportation Board ("CTB") to develop and award contracts using the Design-Build contracting method. In accordance with the law, VDOT completed the Finding of Public Interest ("FOPI") dated July 2, 2006. The FOPI is attached hereto as Attachment No.1.

2.4 Procurement Overview of the Project

VDOT will use a two-phase selection process for the selection of a Design-Builder on the Project. This RFQ represents the first phase in the selection process. VDOT intends to short-list the three (3) highest-ranked Offerors. Only the short-listed Offerors will receive the RFP and be allowed to submit Proposals.

The second phase of the selection process will entail the submission of Technical Proposals and Sealed Price Proposals from each short-listed Offeror. While the RFP will contain specific requirements for the Technical and Sealed Price Proposals, as well as a specific selection criteria process, VDOT anticipates that: (a) Technical Proposals will include, among other things, preliminary plans and a Project schedule; and (b) Sealed Price Proposals will include, among other things, the price of the Project by phase of work. VDOT further anticipates that upon completion of the evaluations of the Technical and Sealed Price Proposals, the Director of Innovative Project Delivery will recommend the top-ranked Offeror to the Chief Engineer for an award of a fixed price Design-Build contract by the CTB.

Offerors are on notice that VDOT may, in its sole discretion, negotiate and award a Design-Build contract to an Offeror if, upon a written determination, VDOT determines that such Offeror is the only Offeror fully qualified to perform the proposed Design-Build contract, or that such Offeror is clearly more highly qualified than the others under consideration. VDOT will notify the Task Force of its selection.

2.5 Schedule

The current schedule for the Project is for substantial completion of the project in September 2009. Final completion will take place in December 2009.

VDOT currently anticipates conducting this procurement in accordance with the following list of milestones. This schedule is subject to revision and VDOT reserves the right to modify this schedule as it finds necessary, in its sole discretion.

.8	Anticipated RFP Release Date	November 30, 2006
.9	Proposals are due	February 21, 2007 at 4:00 P.M. (prevailing local time)
.10	Anticipated Award Date	July 5, 2007

2.6 Proposal Evaluation Team

A Proposal Evaluation Team will be appointed by VDOT to review and evaluate the SOQs. In addition to the appointed Proposal Evaluation Team, VDOT may use any appropriate technical resources to provide assistance in evaluating the submittals.

2.7 VDOT's Point of Contact

VDOT's sole point of contact for matters related to the RFQ shall be Ms. Daniele J. Noland ("POC"). VDOT's POC is the only individual authorized to discuss this RFQ with any interested parties, including Offerors. All communications with VDOT's POC about the Project or this RFQ shall be in writing, as required by applicable provisions of this RFQ.

Ms. Daniele J. Noland
Innovative Project Delivery Division
Virginia Department of Transportation
1401 East Broad Street
Richmond, VA 23219
Email: daniele.noland@vdot.virginia.gov

VDOT disclaims the accuracy of information derived from any source other than VDOT's POC, and the use of any such information is at the sole risk of the Offeror.

An RFQ information package which includes: Virginia's Route 50 Traffic Calming Project Design Memorandum, Scoping Document, Value Engineering Report, Typical Sections, Topographic Survey and DTM, Preliminary Layout of plan, profile, and anticipated R/W limits in Microstation DGN format, Overall Project Layout, Traffic Data, and CE is available to interested Offerors on CD for \$50.00. Interested Offerors should contact VDOT's POC for specific information on how to obtain this information package. It is noted that preliminary design is on-going and will be updated prior to the issuance of the RFP.

2.8 Project Information Meeting

VDOT will hold a project information meeting for potential Offerors on the date set forth in Section 2.5 above in Richmond, Virginia at the Virginia Department of Transportation, Old Highway Building, 1221 East Broad Street, Richmond, Virginia, in the Main Auditorium.

3.0 CONTENTS OF STATEMENTS OF QUALIFICATIONS

3.1 General

The evaluation and short-list process established by this RFQ is intended to enable Offerors to demonstrate their qualifications to perform the Project, and to enable VDOT to evaluate those qualifications in arriving at a short-list. Offerors are advised that the SOQ should include specific information that will demonstrate the qualifications and experience required by this RFQ. The format for the presentation of such information is described in Section 5.2. Offerors should note that it is not the intention of VDOT to receive Project-specific design or engineering recommendations as part of this RFQ.

Offerors are advised that VDOT reserves the right to conduct an independent investigation of any information, including prior experience, identified in an SOQ by contacting project references, accessing public information, contacting independent parties, or any other means. VDOT further reserves the right to request additional information from an Offeror during the evaluation of the Offeror's SOQ.

3.2 Letter of Submittal

Offerors shall provide a Letter of Submittal on the Offeror's letterhead identifying the official representative and point of contact for the Offeror relative to this RFQ and the SOQ. The letter shall identify such representative's title, address, phone and fax numbers, and e-mail addresses, and be signed by an authorized representative of Offeror's organization. If the Offeror is not yet a legal entity or is a joint venture, all major participants or joint venture members shall sign the letter.

Accompanying the Letter of Submittal shall be the SOQ, wherein the Offeror shall specifically address the following:

3.3 Offeror's Corporate Structure

Offeror shall provide sufficient information to enable VDOT to understand and evaluate the Offeror's Corporate Structure. At a minimum, each Offeror shall respond to the following requirements:

3.3.1 Identify whether the Offeror will be structured as a corporation, limited liability company, general partnership, joint venture, limited partnership or other form of organization. Specifically identify the team members who will undertake financial responsibility for the Project and describe any liability limitations. If the Offeror is a limited liability company, partnership or joint venture, describe the bonding approach that will be used and the members of such organizations who will have joint and several liability for the performance of the work required for the Project.

3.3.2 Identify the name, address and telephone number of each principal officer of the legal entity with whom a Design-Build contract with VDOT would be written (e.g., President, Treasurer, Chairperson of the Board of Directors, etc.).

3.4 Offeror's Team Structure

Offeror shall provide sufficient information to enable VDOT to understand and evaluate the Offeror's Team Structure. At a minimum, each Offeror shall respond to the following requirements:

3.4.1 Identify the Offeror's team, including but not limited to the lead contractor and lead designer. Provide the names, addresses and phone numbers of all such team members.

3.4.2 Provide an organizational chart showing the flow of "chain of command" with lines identifying the participants who are responsible for major functions to be performed and their reporting relationships in submitting the SOQ, managing, designing and constructing the Project. If the Offeror intends to use a specific subconsultant or major subcontractor, then it shall identify such entity by name in the organizational chart provided, however that the requirements of Section 10.1 shall apply for such identified parties. This chart should provide the following:

.1 The functional structure of Offeror's project team down to the design discipline leader and construction superintendent level, and identify Key Personnel (as identified in Section 3.5.3 below) by name.

.2 If a corporate officer is listed among the Key Personnel, provide a brief description of how and where he/she plans to perform project duties

including number of hours per week dedicated to this project in their role as “key personnel”, while also fulfilling corporate obligations.

.3 A brief description of significant functional relationships among participants for each chart.

.4 Identification of design subconsultants, specialty subconsultants and major subcontractors.

3.4.3 Identify where the Offeror intends to maintain its project office(s) and where the majority of the design work will be performed.

3.5 Experience of Offeror’s Team

Offeror shall provide sufficient information to enable VDOT to understand and evaluate the experience of the Offeror’s team on similar projects. It is preferred that the Offeror’s team have experience in context sensitive design, roundabout design and construction, traffic calming, scenic and historic settings and public involvement. At a minimum, Offeror shall provide the following requirements:

3.5.1 The lead contractor and lead designer shall each list at least three (3), but no more than five (5), relevant roadway projects, including any Design-Build projects, performed in the past five (5) years. This information is to be provided on the Work History Form attached hereto as Attachment No. 2. If any Design-Build project is provided as a reference that was not performed together by the lead contractor and lead designer, then Offeror shall identify the design professional or construction entity with whom it contracted for each such project.

3.5.2 Offeror shall specify the identity of any specific subconsultant or major subcontractor that the Offeror considers critical to the success of the Project and intends to use on the Project. If Offeror elects to do so, Offeror shall also provide sufficient information to enable VDOT to understand the experience of such subconsultant or subcontractor. In submitting such subconsultants or subcontractors, Offeror will be committing to VDOT that such entities will remain on the Project in accordance with the requirements of Section 10.1 hereof.

3.5.3 Offeror shall provide the identity of and information about the following Key Personnel. This information is to be provided on the Resume Form attached hereto as Attachment No. 3.

.1 **Design-Build Project Manager**– This individual shall be responsible for the overall Project design, construction quality management and contract administration for the Project. This individual shall have a minimum ten (10) years experience and expertise as a Project Manager on similar projects.

.2 **Design Manager** – This individual shall be responsible for coordinating the individual design disciplines and ensuring the overall Project design is in conformance with the Contract Documents. The Design Manager shall be responsible for establishing and overseeing a QA/QC program for all pertinent disciplines involved in the design of the Project, including, but not limited to, review of design, working plans, specifications, and constructability for the Project. This individual shall have a minimum five (5) years experience and expertise as a Design Manager and be a registered, licensed, Professional Engineer in the Commonwealth of Virginia. It is preferred that this individual would have experience in context sensitive design, roundabout design and construction, traffic calming, scenic and historic settings

.3 **Construction Manager** – This individual, who will be required to be on the Project site for the duration of construction operations, shall be responsible for managing the construction process to include all quality control (QC) activities to ensure the materials used and work performed meet contract requirements and the “approved for construction” plans and specifications. This individual shall hold a DCR Responsible Land Disturber (RLD) Certification and a VDOT Erosion and Sediment Control Contractor Certification (ESCCC). This individual shall have a minimum ten (10) years experience and expertise as a Construction Manager on similar projects.

.4 **Quality Assurance Manager (QAM)** – This individual shall be from an independent firm that has no involvement in construction operations for the Project, and responsible for the quality assurance (QA) inspection and testing of all materials used and work performed on the Project to include monitoring of the Contractor’s QC program. The QAM will ensure that all work and materials, testing, and sampling are performed in conformance with the contract requirements, and the “approved for construction” plans and specifications. This individual shall have a minimum five (5) years experience and expertise as a QAM and be a registered, licensed, Professional Engineer in the Commonwealth of Virginia.

.5 The Offeror may provide the identity of other individuals on its team that the Offeror considers critical to the success of the Project and intends to use. If such individuals are identified, they shall be deemed Key Personnel. Offeror shall provide resumes for such individuals and will be committing to VDOT that such individuals will remain on the Project in accordance with the requirements of Section 10.1 hereof.

3.5.4 Describe any notable expertise, or other special capabilities, of Offeror’s team that Offeror contends: (a) is critical to evaluating its SOQ; or (b) differentiates Offeror’s team from the anticipated competition.

3.5.5 Describe quantitatively how this Project would impact the current and anticipated workload of the office(s) which will perform this work. Provide a graph for both the lead designer and lead contractor detailing how this Project

would impact the current and anticipated workload of the office(s) which will perform this work. If additional staff is needed, discuss in which areas it will be necessary and how will it be accomplished.

3.6 Experience of Offeror's Team in Working Together

Offeror shall provide sufficient information to enable VDOT to understand and evaluate the experience of Offeror's team in working together. At a minimum, Offeror shall provide the following:

3.6.1 Identify any experience of Offeror's lead contractor (if different from Offeror), and lead designer (if different from Offeror) in working together on the same project, regardless of the contractual relationship between the parties or the project delivery approach used by the owner.

3.6.2 Identify any projects where the lead contractor and the lead designer have worked together, on the same project. If there are any such projects, describe at least one (1), but no more than five (5), such projects performed in the last five (5) years, focusing on those projects the Offeror considers most relevant in demonstrating its qualifications to serve as a Design-Builder for this Project. This information is to be provided on the Work History Form attached hereto as Attachment No. 2.

3.7 Project Understanding and Approach

Offeror shall provide sufficient information to enable VDOT to evaluate the Offeror's understanding of tasks involved and approach to managing, designing, and constructing the Project. At minimum, Offeror shall provide the following requirements:

3.7.1 A general description of the tasks involved in this Project.

3.7.2 Describe the approach Offeror will take in managing the design process and ensuring timely and quality performance of the design team members.

3.7.3 Describe the approach Offeror will take to construction administration, QA/QC and the involvement of the design members of Offeror's team during construction.

3.7.4 Identify potential risk factors, special issues or problems that are likely to be encountered and explain the approach to mitigate those risks, issues or problems.

3.7.5 Discuss how Offeror intends to maximize the benefits of the Design-Build process. Comment on design, construction administration, design integration, and construction sequencing. Discuss major issues and conceptual solutions.

3.8 Financial and Legal

Offeror shall provide sufficient information to enable VDOT to understand and evaluate the capability of the Offeror to remain viable for the duration of the Project, that it can be contractually bound to and abide by its contractual obligations to VDOT and that it can meet the required financial commitments associated with the Project. At a minimum, Offeror shall provide the following (in the case of joint ventures the information detailed below should be disclosed for both entities):

3.8.1 The lead contractor shall provide evidence that it is prequalified with VDOT or proof that the Letter Requesting Prequalification has been submitted to VDOT for consideration. If such evidence or proof is not provided by the time of Notification to Offerors of the short-list, the SOQ will be rejected.

3.8.2 If the Offeror is a limited liability company, joint venture or any form of partnership, provide complete copies of the organizational documents that allow, or would allow by the time of contract award, the Offeror to do business in the Commonwealth of Virginia.

3.8.3 Provide evidence from a surety or insurance company (with a Best's Rating of A minus and VIII or better by A.M. Best Co.) stating that the Offeror is capable of obtaining a performance and payment bond based on the current estimated contract value referenced in Section 2.1, which bonds will cover the Project and any warranty periods.

3.8.4 Disclose any outstanding litigation that could materially and adversely affect the financial condition of the lead contractor and the lead designer.

3.8.5 Describe any project that the lead contractor or lead designer were involved in within the past five (5) years that resulted in: (a) the assessment of liquidated damages against one of such parties; (b) claims being submitted by or against one of such parties that involve the project owner; (c) one such parties having received a notice to cure a default due to the party's non-performance or poor performance of the underlying contract; or (d) one of such parties being terminated for cause. For any such situation, explain the circumstances and identify the project owner's representative and its current telephone number.

3.9 Safety

Offeror shall provide sufficient information to enable VDOT to understand and evaluate the capability of the Offeror to provide a safe working environment for all individuals associated or affected by the Project. At a minimum, each Offeror shall respond to the following requirements. In the case of joint ventures the information detailed below should be disclosed for both entities.

3.9.1 Provide the lead contractor's numeric Experience Modification Rating, the rating year and the name of the Insurance Company issuing the rating for each of the past five (5) years.

3.9.2 Provide a list of all OSHA citations, the date of each occurrence and their dispositions for the past five (5) years, from 2000 to 2005, against the lead contractor.

3.9.3 Provide the lead contractor's OSHA 200 Summary Form for calendar years prior to 2000 to 2002 and OSHA 300A Summary Form for year 2002 to present or the information contained on these Forms in a similar format for each year after 2000. Also, provide the lead contractor's Recordable Incidence Rates (RIR) and Lost Time Incidence Rates (LTIR) for each of the past five (5) years.

3.10 DBE Goal

3.10.1 Provide a written statement from Offeror, signed by an authorized representative of Offeror, that Offeror is committed to achieving a 17% DBE participation goal during design and construction of the Project.

3.10.2 Describe Offeror's approach to achieve the DBE participation goal set forth in Section 3.10.1 during the design and construction of the Project.

4.0 EVALUATION OF THE STATEMENTS OF QUALIFICATIONS

4.1 Evaluation Criteria and Weightings

VDOT intends to review the SOQs for responsiveness to the requirements of this RFQ and to evaluate all responsive SOQs according to the following criteria and weightings:

<u>Sub-Sections</u>	<u>Rating Weight (%)</u>
3.4 Offeror's Team Structure	20 points
3.5 Experience of Offeror's Team	15 points
3.6 Experience of Offeror's Team in Working Together	10 points
3.7 Project Understanding and Approach	40 points
3.8 Financial and Legal	5 points
3.9 Safety	10 points
3.10 DBE Goal	pass/fail

Maximum Score: 100 points

Each evaluation criterion has an assigned maximum number of points as indicated above. For purposes of determining the pass/fail requirements for the

DBE Goal, the only item that will be considered will be Offeror's submission of the written statement required by Section 3.10.1.

4.2 Scoring and Ranking

Each member of the Proposal Evaluation Team will score and rank each SOQ independently, and then the entire Team will meet to discuss and determine the final scores and ranking. Offerors will then be ranked from the highest to the lowest based on their final scores to determine a short-list.

5.0 SOQ SUBMITTAL REQUIREMENTS

This Section 5.0 describes the requirements that all Offerors must satisfy in submitting SOQs. Failure of any Offeror to submit its SOQ in accordance with this RFQ may result in rejection of its SOQ.

5.1 Due Date, Time and Location

All SOQs must be submitted by the due date set forth in Section 2.5 to the following individual at the following address:

Mr. Don Silies
Scheduling and Contract Division
Virginia Department of Transportation
1401 East Broad Street
Annex Building, 12th Floor
Richmond, VA 23219

Each Offeror must provide VDOT with ten (10) copies of the SOQ and a CD containing one electronic copy of the SOQ in PDF format. Each copy must be identified on its front cover, in the upper right-hand corner, as "Copy ____ of 10 Copies." Neither fax nor email submissions will be accepted. Offerors are responsible for effecting delivery by the deadline above, and late submissions will be rejected without opening, consideration, or evaluation, and will be returned unopened to the sender. VDOT accepts no responsibility for misdirected or lost proposals.

5.2 Format

The qualifications document should contain no more than 30 pages typed on one side only. Neither the Letter of Submittal nor Attachments 2, 4 and 5 shall be counted against the 30 page limit. The proposal shall be written on 8.5" x 11" paper. Only the Work History Form (Attachment 2) shall be 11" x 17", but must be folded to 8.5" x 11". If dividers are used and contain project-specific information they will be counted as pages. All proposals shall be written using Times New Roman with a font of 12-point and include page number reference in the lower right hand corner. Submittals should address each of the following

categories in the same order as listed in Section 3.0. No other Appendices or other Attachments will be accepted other than Attachments 2, 4 and 5.

6.0 QUESTIONS AND CLARIFICATIONS

6.1 Format

All questions and requests for clarification regarding this RFQ shall be submitted to VDOT in writing by email or written letter to the Point of Contact. No requests for additional information, clarification or any other communication should be directed to any other individual. **NO ORAL REQUESTS FOR INFORMATION WILL BE ACCEPTED.**

6.2 Deadlines

All questions or requests for clarification must be submitted by the due date set forth in Section 2.5. Questions or clarifications requested after such time will not be answered, unless VDOT elects, in its sole discretion, to do so. VDOT's responses to questions and request for clarifications shall be in writing, and will be accomplished by an Addendum to this RFQ. All Addenda will be posted on the VDOT Scheduling & Contract Division Web Site as well as eVA. VDOT will not be bound by any oral communications, or written interpretations or clarifications that are not set forth in an Addendum.

6.3 Clarifications

VDOT, at its sole discretion, shall have the right to seek clarifications from any Offeror to fully understand information contained in the SOQ and to help evaluate and rank the Offerors. Offerors may also be requested to make an oral presentation of their qualifications before the qualifications are scored.

7.0 RIGHTS AND OBLIGATIONS OF VDOT

7.1 Reservation of Rights

In connection with this procurement, VDOT reserves to itself all rights (which rights shall be exercisable by VDOT in its sole discretion) available to it under applicable law, including without limitation, the following, with or without cause and with or without notice:

7.1.1 The right to cancel, withdraw, postpone or extend this RFQ or the subsequent RFP in whole or in part at any time prior to the execution by VDOT of a Design-Build contract, without incurring any obligations or liabilities.

7.1.2 The right to issue a new RFQ.

7.1.3 The right to reject any and all submittals, responses and proposals received at any time.

7.1.4 The right to modify all dates set or projected in this RFQ.

7.1.5 The right to terminate evaluations of responses received at any time.

7.1.6 The right to suspend and terminate the procurement process for the Project, at any time.

7.1.7 The right to revise and modify, at any time prior to the RFP submittal date, factors it will consider in evaluating responses to this RFQ and the subsequent RFP and to otherwise revise its evaluation methodology.

7.1.8 The right to waive or permit corrections to data submitted with any response to this RFQ until such time as VDOT declares in writing that a particular stage or phase of its review of the responses to this RFQ has been completed and closed.

7.1.9 The right to issue addenda, supplements, and modifications to this RFQ, including but not limited to modifications of evaluation criteria or methodology and weighting of evaluation criteria.

7.1.10 The right to permit submittal of addenda and supplements to data previously provided with any response to this RFQ until such time as VDOT declares in writing that a particular stage or phase of its review of the responses to this RFQ has been completed and closed.

7.1.11 The right to hold meetings and conduct discussions and correspondence with one or more of the Offerors responding to this RFQ to seek an improved understanding and evaluation of the responses to this RFQ.

7.1.12 The right to seek or obtain data from any source that has the potential to improve the understanding and evaluation of the responses to the RFQ, including the right to seek clarifications from Offerors.

7.1.13 The right to permit Offerors to add or delete firms and/or key personnel until such time as VDOT declares in writing that a particular stage or phase of its review has been completed and closed.

7.1.14 The right to add or delete Offeror responsibilities from the information contained in this RFQ or the subsequent RFP.

7.1.15 The right to appoint and change appointees of any evaluation committee.

7.1.16 The right to use assistance of outside technical and legal experts and consultants in the evaluation process.

7.1.17 The right to waive deficiencies, informalities and irregularities in an SOQ, accept and review a non-conforming SOQ or seek clarifications or supplements to an SOQ.

7.1.18 The right to disqualify any Offeror that changes its submittal without VDOT approval.

7.1.19 The right to change the method of award between the advertisement of the RFQ and the advertisement of the RFP.

7.1.20 The right to respond to all, some, or none of the inquiries, questions and/or requests for clarification received relative to the RFQ.

7.1.21 The right to use all or part of an unsuccessful short-listed Offeror's proposal that accepts a Proposal Payment.

7.1.22 The right to short-list from among the highest ranked Offerors, and to provide an RFP only to those short-listed Offerors. VDOT intends to short-list the three (3) highest ranked Offerors. VDOT may increase or decrease the number of short-listed Offerors, if it is in the best interest of VDOT to do so.

7.2 VDOT Not Obligated for Costs of Proposing

VDOT assumes no obligations, responsibilities, and liabilities, fiscal or otherwise, to reimburse all or part of the costs incurred or alleged to have been incurred by parties considering a response to and/or responding to this RFQ, or the subsequent RFP. All of such costs shall be borne solely by each Offeror and its team members. Notwithstanding the above, VDOT intends to provide those short-listed Offerors who submit a responsive Proposal to the RFP, but who are not awarded the Design-Build contract, a Proposal Payment in consideration for ownership of the information provided in the Proposal. The terms for attaining such Proposal Payment will be identified in the RFP.

8.0 PROTESTS

8.1 General

This Section 8.0 sets forth the exclusive protest remedies available with respect to this RFQ. Each Offeror, by submitting its SOQ, expressly recognizes the limitation on its rights to protest contained herein, expressly waives all other rights and remedies and agrees that the decision on any protest, as provided herein, shall be final and conclusive unless the protesting Offeror appeals within ten (10) calendar days of the written decision by instituting legal action as provided for in §2.2-4364, *Code of Virginia*. These provisions are included in this RFQ expressly in consideration for such waiver and agreement by the Offerors. Such waiver and agreement by each Offeror are also consideration to each other Offeror for making the same waiver and agreement.

8.2 Protests Prior to Submission of SOQ

8.2.1 An Offeror may protest the terms of this RFQ prior to the time for submission of an SOQ on the grounds that: (a) a material provision in this RFQ is wholly ambiguous; (b) any aspect of the procurement process described herein is contrary to legal requirements applicable to this procurement; or (c) this RFQ in whole or in part exceeds the authority of VDOT. Protests regarding this RFQ shall be filed only after the Offeror has informally discussed the nature and basis of the protest with the POC identified in the RFQ in an effort to remove the grounds for protest.

8.2.2 Protests regarding this RFQ shall completely and succinctly state the grounds for protest and shall include all factual and legal documentation in sufficient detail to establish the merits of the protest. Evidentiary statements, if any, shall be submitted under penalty of perjury.

8.2.3 Protests regarding this RFQ shall be filed by hand delivery or courier to the POC within three (3) business days after the protest has been informally discussed, subject to the protest actually being received no later than ten (10) calendar days before the SOQ submittal due date, provided that protests regarding an Addendum to the RFQ shall be filed and actually received no later than five (5) business days after the Addendum to the RFQ is issued.

8.2.4 VDOT will distribute copies of the protest to the other Offerors and may, but need not, request other Offerors to submit statements or arguments regarding the protest and may, in its sole discretion, discuss the protest with the protesting Offeror. If other Offerors are requested to submit statements or arguments, they may file a statement in support of or in opposition to the protest within seven (7) calendar days of the request.

8.2.5 The protesting Offeror shall have the burden of proving its protest by clear and convincing evidence. No hearing will be held on the protest. VDOT or its designee shall decide the protest on the basis of the written submissions. VDOT shall issue the decision in writing to each Offeror. The decision shall be final and conclusive. If necessary to address the issues raised in the protest, VDOT will make appropriate revisions to this RFQ by issuing Addenda. VDOT may extend the SOQ due date, if necessary, to address any protest issues.

8.2.6 The failure of an Offeror to raise a ground for a protest regarding this RFQ shall preclude consideration of that ground in any protest of qualification of an Offeror unless such ground was not and could not have been known to the Offeror in time to protest prior to the final date for such protests.

8.3 Protests Regarding Responsiveness and Qualification After Submission of SOQs

8.3.1 An Offeror may protest the results of the evaluation and short-listing process by filing a notice of protest by hand delivery or courier to the POC within the time periods specified in this Section 8.3. The protesting Offeror shall concurrently file a copy of its notice of protest with the other Offerors. The notice of protest shall specifically state the grounds of the protest.

8.3.2 Notice of protest of any decision to accept or disqualify an SOQ on responsiveness grounds must be filed within five (5) business days after the earliest of notification of non-responsiveness, the scheduled date for oral meetings and presentations (if any) or the public announcement of the short-listed Offerors. Notice of protest of the decision on the short-listed Offerors must be filed and actually received by VDOT within five (5) business days after the public announcement of the short-listed Offerors.

8.3.3 Within seven (7) calendar days of the notice of protest the protesting Offeror must file with the POC a detailed statement of the grounds, legal authorities and facts, including all documents and evidentiary statements, in support of the protest. The protesting Offeror shall concurrently deliver a copy of the detailed statement to all other Offerors. Evidentiary statements, if any, shall be submitted under penalty of perjury. The protesting Offeror shall have the burden of proving its protest by clear and convincing evidence.

8.3.4 Failure to file a notice of protest or a detailed statement within the applicable period shall constitute an unconditional waiver of the right to protest the evaluation or qualified process and decisions there under, other than any protest based on facts not reasonably ascertainable as of such date.

8.3.5 Other Offerors may file by hand delivery to the POC a statement in support of or in opposition to the protest. Such statement must be filed within seven (7) calendar days after the protesting Offeror files its detailed statement of

protest. VDOT will promptly forward copies of any such statements to the protesting Offeror.

8.3.6 Unless otherwise required by law, no evidentiary hearing or oral argument shall be provided, except, in the sole and absolute discretion of VDOT or its designee, a hearing or argument may be permitted if necessary for protection of the public interest or an expressed, legally recognized interest of an Offeror or VDOT. VDOT or its designee shall issue a written decision regarding the protest within thirty (30) calendar days after VDOT receives the detailed statement of protest. Such decision shall be final and conclusive. VDOT or its designee shall deliver the written decision to the protesting Offeror and copies to the other Offerors. Unless necessary for the successful completion of the Project, as determined at the sole discretion of VDOT, the RFP shall not be issued to the short-listed Offerors until VDOT issues its written decision on the protest.

8.3.7 If VDOT or its designee concludes that the Offeror filing the protest has established a basis for protest, VDOT or its designee will determine what remedial steps, if any, are necessary or appropriate to address the issues raised in the protest. Such steps may include, without limitation, withdrawing or revising the decisions, issuing a new RFQ or taking other appropriate actions.

9.0 ADMINISTRATIVE REQUIREMENTS

In addition to the specific submittal requirements set forth in Section 3.0 above, all Offerors shall comply with the following:

9.0.1 All business entities, except for sole proprietorships, are required to be registered with the Virginia State Corporation Commission (a Business Registration Guide is available on the Internet at <http://www.state.va.us/scc/division/clk/brg.htm>). Foreign Professional Corporations and Foreign Professional Limited Liability Companies must possess a Commonwealth of Virginia Certificate of Authority from the State Corporation Commission to render professional services. Any business entity other than a professional corporation, professional limited liability company or sole proprietorship must be registered in the Commonwealth of Virginia with the Department of Professional & Occupational Regulation, Virginia Board for Architects, Professional Engineers, Land Surveyors and Landscape Architects (http://www.state.va.us/dpor/ape_regs.htm). Board regulations require that all professional corporations and business entities that have branch offices located in Virginia which offer or render any professional services relating to the professions regulated by the Board be registered with the Board. Registration involves completing the required application and submitting the required registration fee for each and every branch office location in the Commonwealth. All branch offices that offer or render any professional service must have at least one full-time resident professional in responsible charge who is licensed in the profession offered or rendered at each branch. All firms involved that are to

provide professional services must meet this criteria prior to a contract being executed by VDOT.

9.0.2 VDOT will not consider for award any Price Proposals submitted by any Offerors and will not consent to subcontracting any portions of the proposed Design-Build Contract to any subconsultants in violation of the provisions of the Federal Immigration Reform and Control Act of 1986, which prohibits employment of illegal aliens.

9.0.3 All Offerors must have internal control systems in place that meet federal requirements for accounting. These systems must comply with requirements of 48CFR31, "Federal Acquisition Regulations, Contract Cost Principles and Procedures," and 23CFR172, "Administration of Negotiated Contracts".

9.0.4 VDOT assures compliance with Title VI of the Civil Rights Act of 1964, as amended. The consultant and all subconsultants selected for this project will be required to submit a Title VI Evaluation Report (EEO-D2) when requested by the Department to respond to the RFP. This requirement applies to all consulting firms with fifteen (15) or more employees.

9.0.5 VDOT does not discriminate against an Offeror because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment. This requirement includes all applicable VDOT Roads and Bridge Specifications.

9.0.6 Give names and detailed addresses of all affiliated and/or subsidiary companies. Indicate which companies are subsidiaries. If a situation arises in responding to this questionnaire where you are unsure whether another firm is or is not an affiliate, doubt should be resolved in favor of affiliation and the firm should be listed accordingly. An affiliate shall be considered as any business entity which is closely associated to another business entity so that one entity controls or has power to control the other entity either directly or indirectly; or, when a third party has the power to control or controls both; or where one business entity has been so closely allied with another business entity through an established course of dealings, including but not limited to the lending of financial wherewithal, engaging in joint ventures, etc. as to cause a public perception that the two firms are one entity. Firms which are owned by a holding company or a third party, but otherwise meet the above conditions and do not have interlocking directorships or joint officers serving, are not considered to be affiliates.

9.0.7 Please indicate, by executing and returning the attached Certification Regarding Debarment Forms, set forth as Attachments 4 and 5, if Offeror, or any subconsultant, subcontractor, or any other person or entity identified as a member of Offeror's organization in Section 3.0 above associated therewith in the capacity of owner, partner, director, officer or any position involving the administration of Federal or State funds:

.1 Is currently under suspension, debarment, voluntary exclusion or determination of ineligibility by any federal agency.

.2 Has been suspended, debarred, voluntarily excluded or determined ineligible by any federal agency within the past 3 years.

.3 Does have a proposed debarment pending; or has been indicted, convicted, or had a civil judgment rendered against it or them by a court of competent jurisdiction in any matter involving fraud or official misconduct within the past 3 years.

Any of the above conditions will not necessarily result in denial of award, but will be considered in determining Offeror responsibility. For any condition noted, indicate to whom it applies, initiating agency, and dates of action. Providing false information may result in federal criminal prosecution or administrative sanctions. For the avoidance of doubt, Attachments 4 and 5 shall be separately completed and executed by Offeror and all subconsultants, subcontractors, and any other person or entity identified as a member of Offeror's organization in Section 3.0 above.

9.0.8 Offerors shall note and comply with the following requirements relative to the eVA Business-to-Government Vendor system.

.1 The eVA Internet electronic procurement solution, web site portal (<http://www.eva.state.va.us>), streamlines and automates government purchasing activities in the Commonwealth. The portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to the Commonwealth shall participate in the eVA Internet e-procurement solution either through the eVA Basic Vendor Registration Service or eVA Premium Vendor Registration Service. All bidders or Offerors must register in eVA; failure to register prior to the award of a contract will result in the bid/proposal/ expression of interest being rejected.

.2 eVA Basic Vendor Registration Service: \$25 Annual Fee plus a Transaction Fee of 1% per order received. The maximum transaction fee is \$1500 per order. eVA Basic Vendor Registration Service includes electronic order receipt, vendor catalog posting, on-line registration, and electronic bidding.

.3 eVA Premium Vendor Registration Service: \$25 Annual Fee plus a Transaction Fee of 1% per order received. The maximum transaction fee is \$1500 per order. eVA Premium Vendor Registration Service includes all benefits of the eVA Basic Vendor Registration Service plus automatic email or fax notification of solicitations and amendments, and ability to research historical procurement data, as they become available.

9.0.9 It is the policy of VDOT that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, shall have every opportunity to participate in the performance of construction/consultant contracts. The DBE participation goal for this procurement is set forth in Section 3.10.1. Offerors are encouraged to take all necessary and reasonable steps to ensure that DBEs have every opportunity to compete for and perform services on contracts, including participation in any subsequent supplemental contracts. If a portion of the work on the Project is to be subcontracted out, Offerors must seek out and consider DBEs as potential subcontractors. DBEs must be contacted to solicit their interest, capability and qualifications. Any agreement between an Offeror and a DBE whereby the DBE promises not to provide services to any other Offeror or other contractors/consultants is prohibited.

9.0.10 If a DBE is not certified, the DBE must become certified with the Virginia Department of Minority Business Enterprises (VDMBE) prior to the Proposal Due Date. If the DBE is a prime, the firm will receive full credit for the planned involvement of their own workforce, as well as the work they commit to be performed by DBE subcontractors. DBE primes are encouraged to make the same outreach. DBE credit will be awarded only for work actually performed by DBEs themselves. When a DBE prime or subcontractor subcontracts work to another firm, the work counts toward DBE goals only if the other firm itself is a DBE. A DBE must perform or exercise responsibility for at least 30% of the total cost of its contract with its own workforce.

9.0.11 DBE certification entitles a firm to participate in VDOT's DBE Program. However, it does not guarantee that the firm will obtain VDOT work nor does it attest to the firm's abilities to perform any particular type of work.

10.0 MISCELLANEOUS

10.1 Obligation to Keep Team Intact

All individuals identified as Key Personnel in this RFQ or an SOQ shall remain on the Offeror's Team for the duration of the procurement process and, if the Offeror is awarded a Design-Build contract, the duration of the contract. If extraordinary circumstances require a proposed change, it must be submitted in writing to Owner's POC, who, at his/her sole discretion, will determine whether to authorize a change. Unauthorized changes to the Offeror's Team at any time during the procurement process may result in elimination of the Offeror from further consideration.

10.2 Conflict of Interest

10.2.1 Offerors shall require its proposed team members to identify potential conflicts of interest or a real or perceived competitive advantage relative to this procurement. Offerors are notified that prior or existing contractual obligations between a company and a federal or state agency relative to the Project or

VDOT's design build program may present a conflict of interest or a competitive advantage. If a potential conflict of interest or competitive advantage is identified, the Offeror shall submit in writing the pertinent information to VDOT's POC.

VDOT, in its sole discretion, will make a determination relative to potential organizational conflicts of interest or a real or perceived competitive advantage, and its ability to mitigate such a conflict. An organization determined to have a conflict of interest or competitive advantage relative to this procurement that cannot be mitigated, shall not be allowed to participate as a design-build team member for the Project. Failure to abide by VDOT's determination in this matter may result in a proposal being declared non-responsive.

10.2.2 Conflicts of interest and a real or perceived competitive advantage are described in state and federal law, and, for example, may include, but are not limited to the following situations:

.1 An organization or individual hired by VDOT to provide assistance in development of instructions to Offerors or evaluation criteria for the Project.

.2 An organization or individual hired by VDOT to provide assistance in development of instructions to Offerors or evaluation criteria as part of the programmatic guidance or procurement documents for VDOT's design-build program, and as a result has a unique competitive advantage relative to the Project.

.3 An organization or individual with a present or former contract with VDOT to prepare planning, environmental, engineering, or technical work product for the Project, and has a potential competitive advantage because such work product is not available to all potential Offerors in a timely manner prior to the procurement process.

10.2.3 VDOT reserves the right, in its sole discretion, to make determinations relative to potential conflicts of interest on a project specific basis.

10.2.4 VDOT may, in its sole discretion, determine that a conflict of interest or a real or perceived competitive advantage may be mitigated by disclosing all or a portion of the work product produced by the organization or individual subject to review under this section. If documents have been designated as proprietary by Virginia law, the Offeror will be given the opportunity to waive this disclosure. If Offeror elects not to disclose, Offeror will be declared non-responsive.

10.2.5 Offerors shall note that portions of the documents contained in the RFQ and RFP will include work product developed by H. W. Lochner, Inc. and their subconsultants Lardner/Klein Landscaping Architects, P.C.; Glatting Jackson Kercher Anglin Lopez Rhinehart; Aquarius Engineering; Intermodal Engineering, P.C.; Hurt and Proffit, Inc.; and Alternate Street Design for this project and will

not be allowed to participate as a design-build team member. Any SOQ received in violation of this requirement will be rejected.

10.3 Ethics in Public Contracting Act

VDOT may, in its sole discretion, disqualify the Offeror from further consideration for the award of the contract if it is found after due notice and examination by VDOT that there is a violation of Ethics in Public Contracting Act, Section 2.2-4367 of the Virginia Code, or any similar statute involving the Offeror in the procurement of the contract.

10.4 Virginia Freedom of Information Act

10.4.1 All SOQs submitted to VDOT become the property of VDOT and are subject to the disclosure requirements of Section 2.2-4342 of the Virginia Public Procurement Act and the Virginia Freedom of Information Act (FOIA) (Section 2.2—3700 et seq.). Offerors are advised to familiarize themselves with the provisions of each Act referenced herein to ensure that documents identified as confidential will not be subject to disclosure under FOIA. In no event shall the Commonwealth, the Commonwealth Transportation Commissioner, or VDOT be liable to an Offeror for the disclosure of all or a portion of a SOQ submitted pursuant to this request.

10.4.2 If a responding Offeror has special concerns about information which it desires to make available to VDOT but which it believes constitutes a trade secret, proprietary information, or other confidential information exempted from disclosure, such responding Offeror should specifically and conspicuously designate that information as such in its SOQ and state in writing why protection of that information is needed. The Offeror should make a written request to the Director of the Innovative Project Delivery Division. The written request shall:

.1 Invoke such exemption upon the submission of the materials for which protection is sought.

.2 Identify the specific data or other materials for which the protection is sought.

.3 State the reasons why the protection is necessary.

.4 Indicate that a similar process with the appropriate officials of the affected local jurisdictions is or will be conducted. Failure to take such precautions prior to submission of a SOQ may subject confidential information to disclosure under the Virginia FOIA.

10.4.3 Blanket designations that do not identify the specific information shall not be acceptable and may be cause for VDOT to treat the entire SOQ as public information. Nothing contained in this provision shall modify or amend

requirements and obligations imposed on VDOT by applicable law, and the applicable law(s) shall control in the event of a conflict between the procedures described above and any applicable law(s).

10.4.4 In the event VDOT receives a request for public disclosure of all or any portion of a SOQ identified as confidential, VDOT will attempt to notify the Offeror of the request, providing an opportunity for such Offeror to assert, in writing, claimed exemptions under the FOIA or other Commonwealth law. VDOT will come to its own determination whether or not the requested materials are exempt from disclosure. In the event VDOT elects to disclose the requested materials, it will provide the Offeror advance notice of its intent to disclose.

10.4.5 Because of the confidential nature of the evaluation and negotiation process associated with this Project, and to preserve the propriety of each Offeror's SOQ, it is VDOT's intention, subject to applicable law, not to consider a request for disclosure until after VDOT's issuance of a Notice of Intent to Award. Offerors are on notice that once a Design-Build Contract is executed, some or all of the information submitted through in the SOQ may lose its protection under the applicable laws of the Commonwealth.

ATTACHMENT NO. 1

Finding of Public Interest for the Use of Design-Build Contracting Method Gilbert's Corner: Loudoun County, Virginia

The Virginia Department of Transportation (VDOT) has a need to accelerate completion of reconstruction of the Route 50 rural minor arterial roadway at Gilbert's Corner, from the intersection of Route 15 to the intersection of Watson Road on the existing alignment. The proposed project would consist of four roundabouts, one potential bridge, storm drainage installation, and improved pavement.

The benefit of the design-build contracting method satisfies the following transportation needs:

- Acceleration of the project schedule. The district's current schedule for completion of the design-bid-build project is September 2010. By implementing the design-build process, project completion can occur by November 2009, thereby accelerating the current project schedule by approximately 10 months.
- Overall savings. Because the project will finish ahead of schedule there will be a savings in inflation cost factors.
- Funds are programmed to enable early delivery. The economic benefits of the project accrue to the community and state sooner.

The area encompassing the project is experiencing significant growth. This project will implement traffic calming measures promoting slower and safer vehicular speeds on Route 50. Reduced speeds are necessary to improved vehicular safety, and to minimize conflicts between, and enhance conditions, for motorists, pedestrians and residents. By delivering the project in less time than with the traditional methods, the public will realize the benefits of the project sooner.

VDOT has a clear understanding of project scope. The scope will be defined to achieve desired results with room for innovation in design and construction of the project.

Based on review of this public interest finding and the objective criteria previously adopted by the Commonwealth Transportation Board regarding the use of design-build, I find the use of design-build contracting method for the proposed project is in the best interest of the Commonwealth of Virginia.

CERTIFICATION REGARDING DEBARMENT
PRIMARY COVERED TRANSACTIONS

Project No.: 0050-053-119, P101, R201, C501

1) The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency.

b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; and have not been convicted of any violations of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph 1) b) of this certification; and

d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

2) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

The undersigned makes the foregoing statements to be filed with the proposal submitted on behalf of the Offeror for contracts to be let by the Commonwealth Transportation Board.
